**BRINGING BRITISH EDUCATION TO YOU**

## Who are we?

Lisbon International College of Social Sciences and Technology (LICSSST) is an educational institution founded in 2017. Our main focus is the administration of courses approved by the NCC Education.

## What is NCC Education?

NCC Education is a British organization that offers several courses in the IT area, which are held in several partner centres, including our institution, and that allow you the opportunity of completing it in one of the many British universities that have partnership with the NCC Education.

## Why should you do this course?

International Foundation Diploma for Higher Education Studies (L3IFDHES) is a bridging qualification programme for international students who want to become to the UK, Australia, Canada or the US to study at University. The NCC Education foundation programme (L3IFDHES) prepares students who have completed their high school studies to apply for undergraduate degree courses at Universities in the UK, Australia, Canada and US by bringing their level of English up to the standard required for university study and by allowing them to meet the university's academic entry requirements.

## What is required to do your admission?

- Secondary education completed/ High School completed;
- The achievement of a minimum of 4.5 in the IELTS (International English Language Testing System), provided by us in the Institution, or through a SEPT (The Standardized English Proficiency Test).
